

2009 Sewing/craft/machine classes
Craft Barn
Susan Mullis, Monroe NC

Tuesday, June 30:

10:00 am – Household sewing & crafts for the home. We will discuss quick crafts you can make for your home (and as gifts), and also repairs on basic items such as children's clothing, curtains, socks, etc.

2:00 pm – Basic sewing machine maintenance. Whether your machine is people-powered, or has a tail (an electric), all machines require the same basic service. Come learn how to service your home machine to help prevent these major repairs.

Wednesday, July 1:

10:00 am – Beginner quilting – learn the basics of quilting including tools, how to design your pattern, and how to assemble the quilt top.

2:00 pm – quilting by treadle – learn the basics of using a walking foot machine to free-motion quilt, and a darning foot to free motion quilt. (This will be illustrated on a treadle, however the same can be done with proper presser foot on an electric machine).

Thursday, July 2:

10:00 am – Antique Sewing Machine repair and restoration

2:00 pm – Beginner quilting – learn the basics of quilting including tools, how to design your pattern, and how to assemble the quilt top.

Friday, July 3rd:

10:00 am - quilting by treadle – learn the basics of using a walking foot machine to free-motion quilt, and a darning foot to free motion quilt. (This will be illustrated on a treadle, however the same can be done with proper presser foot on an electric machine).

2:00 pm - Household sewing & crafts for the home. We will discuss quick crafts you can make for your home (and as gifts), and also repairs on basic items such as children's clothing, curtains, socks, etc

Saturday, July 4th:

10:00 am – Antique Sewing Machine repair and restoration

2:00 pm – quilting by treadle – learn the basics of using a walking foot machine to free-motion quilt, and a darning foot to free motion quilt. (This will be illustrated on a treadle, however the same can be done with proper presser foot on an electric machine).
